

## 7<sup>th</sup> World Hydrogen Technology Convention together with Czech Hydrogen Days 2017

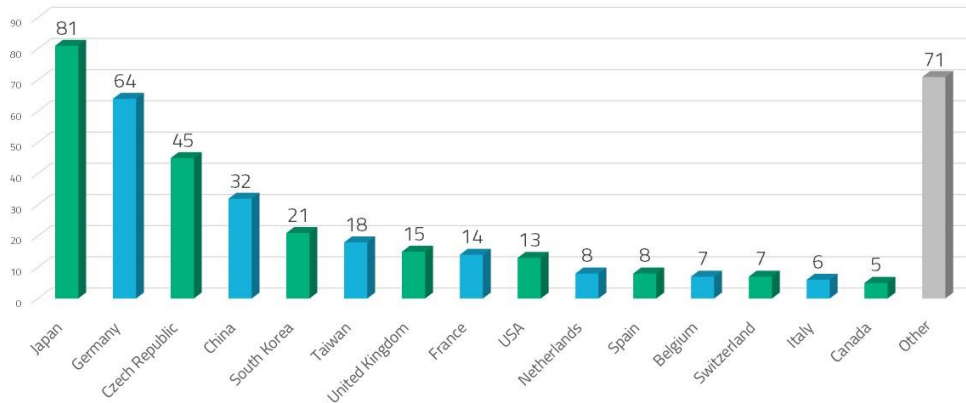

Delegates from the Consortium (that Vladi knows of): Prof. Dr.-Ing. Thomas von Unwerth (TUC), Dipl.-Ing. Vladimír Buday (TUC), Dr. Mathias Reum (PM)

- There was over 500 participants, mainly from the industry but also from the politics and research organizations.
- Toyota had two MIRAIs available for ride and drive there; there was also the TriHyBus with a PM system; 12 exhibitors had been presenting in the exhibition area.
- There have been a number of delegates from different branches of industry and they asked during the oral sessions a lot of industry related questions such as mass manufacture ability, stability, sustainability, return of investment and if there is a business case of the proposed improvements.
- There were also representatives from the EU, FCH JU, NOW, and different (inter)national politics.
- The research community was involved mainly in the oral and poster sessions.
- The overall atmosphere implied that the (Hydrogen) future is closer than anyone thinks; which was the main theme of the conference, too.
- The main topics of the conference were divided into these sessions:
  - Transportation systems
  - Energy systems
  - Electrolyzers
  - Power to gas
  - Alternatives fuels
  - Storage systems
  - H<sub>2</sub> purity and processing
  - Photocatalysis
  - Hydrogen economy
  - and cross cutting issues
- During the conference, we discussed our Fit-4-AMandA project with Europeans car manufacturers (e. g. VW, PSA), with OEM suppliers (e. g. Continental, PM), with other companies (e. g. Unipetrol, LeanCat), and research institutions.
- The head of the Department of Advanced Powertrains at TU Chemnitz, Prof. Dr.-Ing. Thomas von Unwerth, was the co-chairman of the Transportation systems and a member of the scientific committee.

Here are some numbers (source: [www.whtcp Prague2017.cz](http://www.whtcp Prague2017.cz))

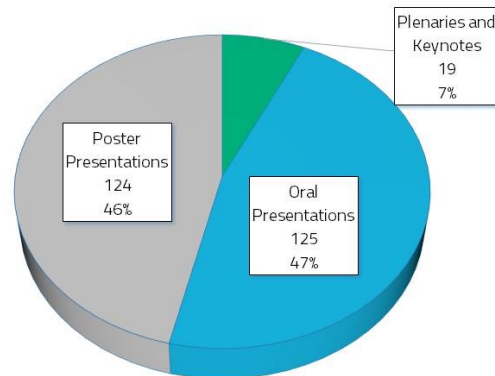

513 delegates from 45 countries arrived to Prague and they presented 144 oral presentations and 124 posters.

## DELEGATES FROM 45 COUNTRIES

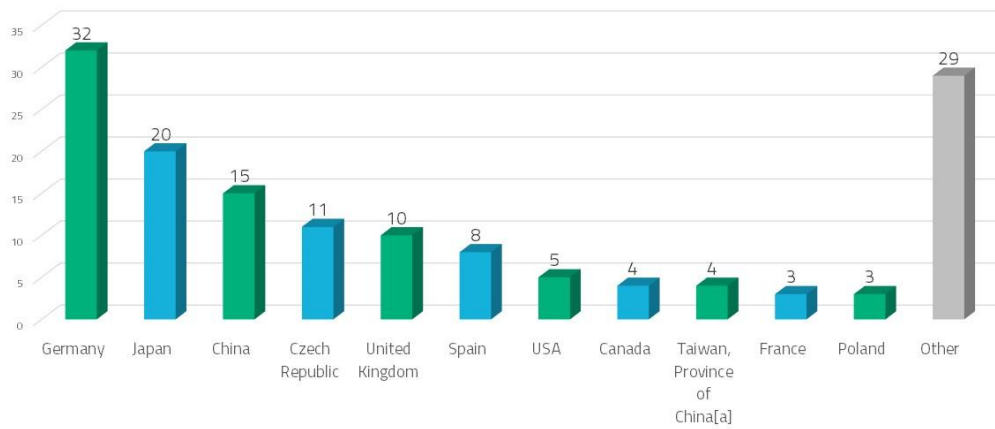

## SCIENTIFIC PROGRAMME

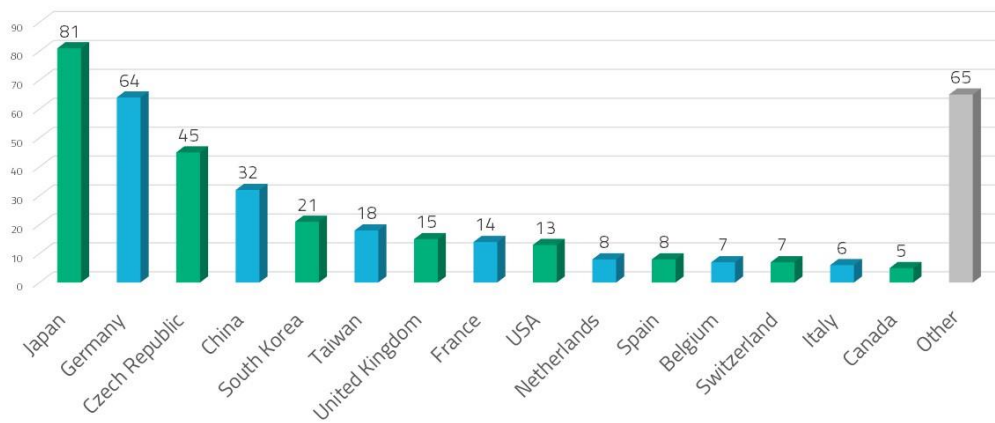

Presentation Type	Amount
Plenaries and Keynotes	19
Oral Presentations	125
Poster Presentations	124
<b>TOTAL PRESENTATIONS</b>	<b>268</b>

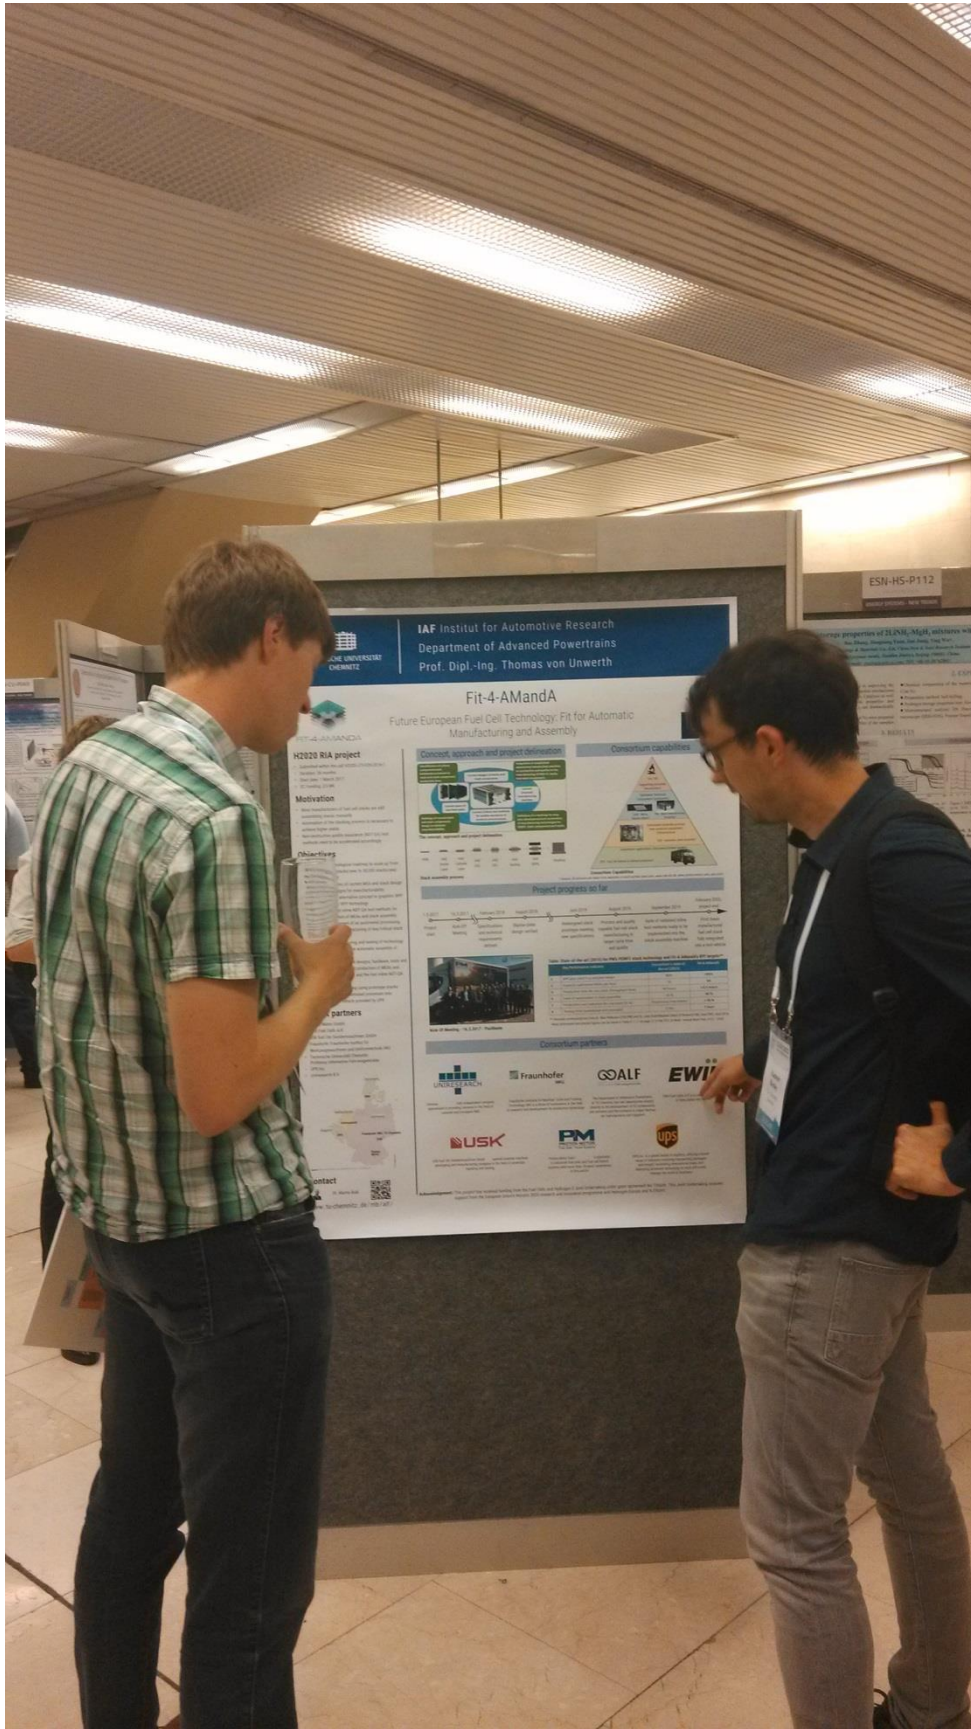

## 144 SPEAKERS FROM 33 COUNTRIES

## 124 POSTERS FROM 26 COUNTRIES
