Publishable Executive Summary

The deliverable D8.1 - Annual data reporting for the FCH Knowledge Management Tool (Year 1) should provide a concise information about the activities and project achievements in Year 1.

This data-set should be provided to the FCH JU according to a specific questionnaire through the TRUST (Technology Reporting Using Structured Templates) submission system.

Each project (co-)funded by the FCH JU should fill in this on line questionnaire specific for the sector of application and report on the results obtained in the past year.

Since the Fit-4-AMandA project officially started only four months before the deadline of this deliverable (Start date 1st March 2017), the consortium has currently no data / results to report in the TRUST system.

Therefore, as also communicated by the Project Officer in his email dated 18th May 2017, no invitation from the FCH JU to fill in the online system has been received. This exercise will be completed for the project years 2 and 3 with the preparation of deliverables D8.3 and D8.4, respectively due in June 2018 and June 2019.
