

FIT-4-AMANDA

Future European Fuel Cell Technology: Fit for Automatic Manufacturing and Assembly

EUROPEAN COMMISSION

Horizon 2020 | FCH-1-12016 | Manufacturing technologies for PEMFC stack components and stacks

GA # 735606

Deliverable No.	Fit-4-AMandA D7.1	
Deliverable Title	Project website, including Project templates (reports, presentations, logo), database for Dissemination (stakeholders, interest groups, contact details)	
Deliverable Date	2017-06-15	
Deliverable Type	REPORT	
Dissemination level	Public (PU)	
Written By	Dr. Anish Patil (UNR)	2017-06-09
Checked by	Dr. Anna Molinari (UNR)	2017-06-12
Approved by	Dr. Anna Molinari (UNR) – Project Coordinator	2017-06-15
Status	Final	2017-06-15

1. Publishable Summary

Fit-4-AMandA is a Research Innovation Action, wherein effective dissemination and communication is especially important to ensure adoption of the Fit-4-AMandA technologies during and after the project. The purpose of the dissemination and communication activities is to - raise awareness, inform, engage, promote and ensure that the results will be sustained after the project.

This deliverable describes the Fit-4-AMandA project identity, consisting of project logo, website, templates for reports and presentations, and the explanation of the setting up and use of the dissemination database (possible stakeholders and/or end users, interest groups, contact details and general info).

The deliverable also shows the setup of the Fit-4-AMandA project templates, which incorporate the graphical logo which was created uniquely for the project. The templates are created to support project presentations, deliverables, meeting documents and reporting requirements. Usage of standard templates ensure that there is consistency and conciseness in the way work is carried out and presented through the project duration.

The colour theme of the logo was used to further design the website and communication materials for the project. The internal (/partner restricted) website was initially prepared and launched among partners during the grant preparation phases. After the project start (1 March 2017), the internal website was updated and extended and the work for setting up the external public website commenced. The website was launched on 1 April, under the domain www.fit-4-amanda.eu. Furthermore, a short description of the possible project flyer is presented.

Finally, this document reports on the setting up of a dissemination contact database, meant to collect contact details from possible stakeholders for dissemination purposes.
